

HILLCREST FAMILY HEALTH CENTER
FORMULARY BENEFITS DATA CONSENT FORM

Formulary Benefits data is maintained for health insurance providers by organizations known as Pharmacy Benefits Managers (PBM). PBMs are third party administrators of prescription drug programs whose primary responsibilities include processing and paying prescription drug claims. They also develop and maintain formularies, which are lists of dispensable drugs covered by a particular drug benefit plan.

By signing below, I give permission for the Hillcrest Family Health Center to access my pharmacy benefits data electronically, through RxHub. This consent will enable the Hillcrest Family Health Center to:

Determine the pharmacy benefits and drug co-pays for a patient's health plan.

Check whether a prescribed medication is covered (in formulary) under a patient's plan.

Display therapeutic alternatives with preference rank (if available) within a drug class for non-formulary medications.

Determine if a patient's health plan allows electronic prescribing to Mail Order pharmacies, and if so, e-scribe to these pharmacies.

Download all historic list of all medication prescribed for a patient by any provider.

In summary, we ask your permission to obtain formulary information, and information about other prescriptions prescribed by other providers using RxHub.
